

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your pharmacy benefit plan. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

Generics are in lower case (1st tier), preferred brand names in CAPITAL (2nd tier) and non-formulary (3rd tier) are listed in the back of formulary with selected alternatives.
